

# Refuse Operations Checklist

General reference checklist to support municipal refuse and solid waste operations.

## Checklist

- Routes documented and periodically reviewed (service zones, priority areas)
- Pre-trip and post-trip vehicle inspection routine established
- Spillage prevention and cleanup procedures documented
- Missed pickup tracking and resolution process defined
- Crew safety practices reinforced (PPE, backing safety, situational awareness)
- Equipment readiness plan aligned with seasonal demand
- Contractor oversight documentation maintained (if applicable)
- Incident, near-miss, and property damage reporting procedure established
